

Image Analysis Week 3

5 – Multi image analysis: (eg [movie](#))

- videos (t-stacks), 3D images (z-stacks), multi-image maps (stitched stacks)
- Image stacks (change properties: time-slice, time interval, pixel scaling)
- time-dependent analysis in videos (ROI)
- particle tracking in videos using [MTrackJ](#) plugin

6 – Automation:

- batch analysis
- macros
